* The College of Engineering will consider applicants with 120+ units on a case-by-case basis

- If you believe you are eligible for the TAG, read this 5-page document for TAG procedures and requirements. Compile all of your transcripts and (if applicable) Advanced Placement (AP) or International Baccalaureate (IB) exam scores. (See pages 5 for details) Log-in to the **UC Transfer Admission Planner (UC TAP)** and enter your information. You will be applying for the TAG using UC TAP.

<https://uctap.universityofcalifornia.edu/students/>

- Attend a UC TAG Workshop. (optional, but highly recommended) Registration is required. To view workshop schedule and register, go to the Transfer Center Website: <https://www.deanza.edu/transfercenter/transfer-events/workshops.html>.
- You may also speak with a De Anza counselor/academic adviser to address specific TAG questions. **Entering your information into UC TAP prior to seeking assistance will optimize your session.** See: <https://www.deanza.edu/counseling/> or <https://www.deanza.edu/transfercenter/> Staffing is limited during the summer and early fall. **EOPS and ISP students should work with their program counselors/academic advisers.**

- Review the information provided on the UC Davis TAG site: <https://www.ucdavis.edu/admissions/undergraduate/transfer/transfer-admission-guarantee/criteria>

- Submit the UCD TAG Application online (within UC TAP): **September 1-30, 2022.**

- Check UC TAP (‘Messages’ tab) and your email for messages often through October 15, 2021. Respond to all requests promptly. Your TAG may be at risk if you fail to respond to requests. Review the information provided on the “TAG Decisions” page:

<https://www.ucdavis.edu/admissions/undergraduate/transfer/transfer-admission-guarantee/decisions>

- Submit your UC Application for Undergraduate Admission: **October 1-November 30, 2022.**
(Note: UCD encourages students to wait for TAG decisions before submitting the UC application)

 - ♦ Arts and Humanities (Area UC-H) ♦ Social and Behavioral Sciences (Area UC-B) ♦ Physical and Biological Sciences (Area UC-S)

SELECTIVE MAJORS BELOW – The minimum GPA and coursework listed below are required for admission. This information is based on articulation agreements between UCD and De Anza College and **only articulated courses are shown**. For additional courses in your major, see www.ASSIST.org and <https://admissions.ucdavis.edu/majorsGuide/> For the best transition and reduced time-to-degree, students should consider completing all lower division preparatory coursework for their intended major. If you attended, are attending, or plan to attend another CCC prior to transfer, you must check the college's articulation with UCD. Review 'Courses Offered by CCC' policy on Page 4.

Courses must be taken for a letter grade[Ⓢ] and completed by the end of spring 2023. Selective major courses completed at the time the TAG is written must have C grades or higher; course repeats in-progress and planned will not be considered for TAG.

The information on selective majors below is based on TAG criteria available at the time of printing and limited to those courses offered at De Anza. You are advised to visit the UC Davis TAG Website (<https://www.ucdavis.edu/admissions/undergraduate/transfer/transfer-admission-guarantee/criteria>) and www.assist.org for possible updates before submitting your TAG.

NON-SELECTIVE MAJORS – For majors not listed below, see www.ASSIST.org and the latest agreement available at <https://admissions.ucdavis.edu/majorsGuide/> for lower division major coursework.

UC Davis: Notes

Student Name

You must use your full legal name on the UC TAG Application and the UC Application for Undergraduate Admission; consistent use and spelling of your name is crucial.

UC Application

If your TAG is approved, you must submit the UC Application for Undergraduate Admission October 1- November 30, 2022 for the same major on the TAG to keep your TAG. Information on the UC TAG Application and UC Application for Undergraduate Admission must match. (Note: UCD encourages students to wait for TAG decisions before submitting the UC application) You must also complete the UC Transfer Academic Update (TAU) see: <https://admission.universityofcalifornia.edu/how-to-apply/applying-as-a-transfer/after-you-apply/> providing grades and course changes as directed, by the specified deadline.

Courses Offered by California Community Colleges (CCC)

You must take courses equivalent to UC Davis courses if they are offered at De Anza. Courses not offered at De Anza must be completed after enrolling at UC Davis. When www.assist.org states that there is “NO COMPARABLE COURSE” or “NO COURSE ARTICULATED” UC Davis will waive that course requirement for the TAG. If a course is not offered at De Anza, UC Davis encourages you to seek comparable courses at another CCC when possible and to include comments in the TAG Application when unable to enroll in required courses.

Transcripts (domestic and outside of the US)

- 1) You must self-report online each college or university where you were previously (and are currently) enrolled/attended, including enrollment and attendance in English language programs. You must be prepared to provide UC Davis with transcripts verifying enrollment and attendance in English language programs upon request.
- 2) If you attended a college or university outside of the United States, the correct name and address of each international school must be reported online. You must be prepared to provide UC Davis with transcripts (with grading rubrics), course descriptions, AND word-for-word English translations of both documents upon request.
- 3) If you are admitted to UC Davis you must be prepared to submit official final De Anza transcripts to UC Davis by July 15, 2023. (Note, this extended deadline applies to Foothill-De Anza because we're on the quarter system. All other official final transcripts (college, university, high school) must be submitted by July 1, 2023.) **It is critical that coursework self-reported on the UC TAG Application (via TAP) and the UC Application for Undergraduate Admission matches with coursework on official transcripts.**

Exam Scores

If exams were taken, you must self-report online scores from AP and IB Higher Level Examinations. Students admitted to UC Davis should be prepared to submit official exam scores to UC Davis by July 1, 2023. It is critical that scores self-reported on the UC TAG Application (via TAP) and the UC Application for Undergraduate Admission match the official exam scores. AP and IB exams with valid scores are acceptable when comparable to UC Davis course equivalencies. See UC Davis AP and IB info at:

<https://www.ucdavis.edu/admissions/undergraduate/transfer/transfer-admission-guarantee/criteria>

Missing lower-level courses within series

If you completed advanced-level courses without completing corresponding lower-level courses within a series, be advised that you may be missing important subject matter considered comparable to UC Davis course content. Consult with UC Davis directly for possible transfer limitations/restrictions. Regarding sequential math and language other than English (LOTE) courses, advanced level course completed with a "C" or better validates the missing lower-level course. TAG applicants in selective majors requiring mathematics must still meet specified course group GPA requirements. Regarding sequential chemistry courses, TAG applicants in selective majors requiring chemistry who meet specified course group GPA requirements will be reviewed by the college on a case-by-case basis for an admission recommendation. Physics courses are NOT considered sequential.

Lower-Division Unit Limitations/Excessive Units

You will be granted up to 70 sem/105 qtr units of credit for lower division coursework completed at any institution or any combination of institutions. For units beyond the maximum, subject credit for appropriate coursework taken in excess of this unit limitation will be granted and may be used to satisfy requirements. If upper division coursework was completed, please check with a counselor or adviser to determine if you are at risk of being denied admission due to excessive units.

- Units earned through AP, IB, and/or A-Level examinations do not put applicants at risk of being denied admission due to excessive units.
- ALL units earned at any UC campus (extension, summer, cross/concurrent and regular academic year enrollment) are not included in the limitation. This means they will be added to the maximum transfer credit allowed and may put applicants at risk of being denied admission due to excessive units.

Reporting Coursework/ Gaps in Education

The UC Transfer Admission Planner System instructs you to list in chronological order **ALL** college and university courses (including summer session and extension courses) for all terms you have attempted or completed (including courses you repeated or in which you earned a D or an F, I for incomplete, or W for withdrawal), regardless of grade, length of attendance or whether you think the courses will affect your chances for a TAG. Enter your grades exactly as they appear on your records. Refer to grade reports and transcripts; do not work from memory. **Be sure to include courses that are currently in progress and planned for future terms. You must also report and explain any gaps in your education.**

You will be reporting UC transferable courses completed at a CCC by selecting from a course-list displayed in UC TAP. All other courses must be manually entered. Transpose the course information exactly as it appears on the transcript, with the exception of campus identifiers (D=De Anza, F=Foothill) attached to Foothill-De Anza's course numbers appearing on Degree Works and unofficial transcripts. Report the correct course number by dropping the campus identifier. Reminder: you should only be manually typing in CCC courses that are not UC transferable and courses taken outside of the CCC system.

Series Courses Should be Completed at the Same California Community College

Articulation agreements are California community college specific. Lower division courses that are taken at multiple California community colleges may articulate differently from what is indicated in the department or major agreements. Series courses should be completed at the same California community college.
