ICC Chair of Club Affairs Candidates (4/15)

Listed in Alphabetical Order (last name)

Eaint Nay Chi Khin

As an admin intern for ICC, I have been actively volunteering at ICC events and attending most of executive and committee meetings since fall quarter. During that time, I had so much fun helping the clubs, and felt that this is something I want to continue doing. Through my experience as an intern, I learnt how clubs operate, including the process of starting or reactivating a new club, as well as some challenges that clubs experience that could lead to probation or inactivity for those clubs. As a club member myself, I have also seen where they may need additional support, especially during times of leadership transitions, or miscommunication and timing delays with ICC. Because clubs are important to both the community and the students: they help us make new friends, explore our interests, and find a place where we can belong, it is important that these clubs continue to grow and thrive in De Anza. If I am selected as Chair of Club Affairs, I will work toward being responsive and accessible, simplifying club processes, and helping resolve challenges that disturbs clubs from being active. I want to lead by listening, keeping clubs thriving and active as ever.

Sirius Lin

I want to be a member of the ICC because it was during my first week at De Anza that I joined the Club Day and I participated in all activities that were put in place by the IC. I was so surprised by the level of organization and the liveliness that I saw at the campus. It struck me that clubs were such an essential part of the school. Clubs bring together people from different backgrounds, they offer an opportunity to people to participate and they enliven the otherwise boring and theoretical life in school.

I want to be active in clubs and their joining and take care of them. That is why I am applying for Chair of Club Affairs. I want the clubs to work, communicate better and feel supported by ICC. I believe that good communication and organization can aid the clubs in their growth and thriving.

I consider myself a responsible and hardworking person. I can cooperate with people, hear them, and do not hesitate to make my own attempts to solve any issues that come up. I can learn from the past to make the future better.

In ICC, I am planning not only doing my best to make the campus a better place, but also mastering and practicing leadership, communication, and organizational skills. I do my best to support all clubs in uniting all students within the single community, friendly to everybody. Apart from this, I believe that the main career of ICC is not the program of events, but the networking of clubs and students among each other. I would like to strengthen the feeling of belonging and friendliness to clubs, regardless of the number of members and the level of achievements, by creating a friendly atmosphere and providing equal opportunities for every club. Apart from the fact that I am going to strengthen the network of clubs within ICC, I believe that it is very important to tackle the problem of club-ICC communication, as my proposal helps to spread the information to all people.
