Re: Spanish Course Equivalencies between De Anza and Foothill
Effective fall 2026

The following courses are equivalent:

DA Spanish 1 and FH Spanish 1
DA Spanish 2 and FH Spanish 2
DA Spanish 3 and FH Spanish 3
DA Spanish 4 and FH Spanish 4
DA Spanish 5 and FH Spanish 5
DA Spanish 6 and FH Spanish 6

Please document these equivalencies in the curriculum systems DA uses and in Banner so that students from both DA and FH can enroll in subsequent Spanish classes based on the classes in progress at either college.

The Dean of IIS at DA, Debbie Lee, has confirmed that these courses are equivalent with the Dean of LA at FH, Valerie Fong, and FH's Spanish department faculty member, Patricia Crespo-Martin.

Manisha Karia, Dean of Automotive Technology and Computer Business

DRAFT

Re: Program Status Change for CIS 82Y for effective fall 2026

The program status of CIS 82Y has been changed from stand-alone to program applicable. The status has changed due to processing the Applied Artificial Intelligence COA-A and AA programs, which are effective in fall 2026.

The following other CIS 82 series courses will remain non-program-applicable:

- CIS 82W
- CIS 82X
- CIS 82Z

Regards,

Mary K. Clark-Tillman

e. **APPROVED, effective Fall 2027:**

To: Curriculum Committee

Date: March 3, 2026

Re: Extension Request for CETH 11

Effective fall 2027

I am requesting an extension until fall 2028 for CETH 11 - Race & Ethnicity: Belonging and Exclusion in the US. I will be making major revisions to the course next year and potentially creating a new course that distinguishes CETH 11 from CETH 10 - Introduction to Ethnic studies. I will be making revisions to the course with a focus on race and social movements. CETH 11 currently closely resembles the similar content as CETH 10 - Introduction to Ethnic studies. Changes to CETH 11 will require major revisions to change the course's contents.

f. **APPROVED, effective Fall 2027:**

To: Curriculum Committee

Date: March 3, 2026

Re: Extension Request for CETH 13/ARTS 2F

Effective fall 2027

I am requesting an extension until fall 2028 for revisions and changes to CETH 13/ARTS 2F - History of Multicultural Arts in the United States. I will be making major revisions to the course next year and potentially creating a new course that focuses on race and pop culture that satisfies the humanities requirement for transferring.

5. **OTHER BUSINESS:**

a. DEI Review Process – Request to Streamline – Wilker

- Wilker has been successfully utilizing the current DEI process to review CORs; however, processing is taking more time than expected. To help resolve the issue, Wilker will be eventually phasing some DEI review responsibilities to the Committee’s Technical Review groups so that reviews do not rest solely on one individual. This will start with the Fall 2028 curriculum cycle.
- Additional streamlining solutions included the following: faculty self-reporting form; fewer suggested edits; inclusion of answer banks for uniformity. Wilker then presented what additional areas each Technical Review group would be responsible for reviewing in the new process.
- Committee’s next action item is to review these updates to the finalized process and approve via vote by the April 22, 2026 deadline.
- Wilker will plan to lead trainings for the Committee groups in Fall 2026 on how to integrate this updated process into Technical Review in preparation for the 2028 curriculum cycle. The 2027 curriculum cycle will finish out under the current DEI review process.
- Chang informed Committee that the Curriculum Office’s involvement in the updated Technical Review process will require additional consideration as well. Bliss stated there may be routing solutions available in the new CMS Courserdog once implemented.
- Ray requested the removal of the “harmful/discriminatory” language requirement, as faculty may interpret the requirement as accusatory. Offered an alternative

solution that if/when harmful language is found in a COR, the faculty member should be engaged with individually about the requirement.

- **APPROVED** – (M/S/C – Judson/Nguyen)
 - Approve the Equity Process Updates as presented, with the removal of the “if harmful” language and requirements. Effective starting with courses in the Fall 2028 term and curriculum cycle.
- Follow up action: This process will be taken to the next CAT meeting to discuss optimization details. Reminder that any required DEI changes made in Technical Review cannot be reviewed by the Curriculum Office, and a new process will need developed to account for this. Additionally, Committee agreed to further discussion once more is known about Coursera system capabilities.

b. CTE 64 Departmental Offerings – Singh

- Singh presented details from slide deck provided prior to Committee meeting via electronic mail. The presentation covered the questions of Discipline Assignment, TOP/CIP code assignment, repeatability, and Load Factor for the CTE 64 course.
- Discipline Assignment: Recommendation was to make this assignment Interdisciplinary. Singh fielded questions regarding who decides the minimum qualifications vs. disciplines for each individual offering of the course, start-to-end process for how a section of the course would be created, whose approvals would be required to begin a section, and the process division between minimum qualifications assignment and discipline assignment. The outcomes of this discussion were as follows: Committee is not prepared to approve a discipline assignment yet; Vice President Bryant will be contacted to provide a process workflow to show Committee prior to an approval vote.
- TOP Code Assignment: Singh will reach out to the course initiator Tran to confirm TOP code selection, with a Committee approval vote to follow. This will also confirm whether the course will remain a CTE designated course. Committee was reminded that if certain TOP codes are selected, this may limit certain departments' ability to offer the course.
- Repeatability: Repeatability of a course is limited by Title V. Committee agreed that so long as the CTE 64 course meets the necessary Title V exceptions, then repeatability of the course is acceptable. Steiner reminded Committee that one of these exceptions is that the course must be integrated into a student's educational pathway; if the CTE 64 course maintains an Interdisciplinary status, then it does not meet the Title V pathway exception. Committee agreed that this topic will need to be brought back for further discussion.
- Load Factor: Committee agreed that this topic will be decided at the Administrator level, and no CC approval is warranted.

c. GE Pattern Approved by Academic Senate – Our Action Plan – Singh

- GE Pattern was approved by Academic Senate and will be effective Fall 2028.
- Updates will be needed from Committee for: Criteria (defining GE), Form (to capture GE alignment), Rubric/Guide (to evaluate GE), and Support (to enable faculty success.)
- Singh provided a brief walkthrough of the implementation plan, also sent out via electronic mail.

d. Public Comments

- Chang: Wednesday May 25th is our first eLumen deadline. Faculty cannot initiate workflows in the system after Wednesday. Approximately 90 courses have not been started.
- Singh: Will send a daily communications to get initiators moving. Reminded Committee that if curriculum is not initiated, the items will be suspended.
