What student concerns do you feel the DASB should address?

Due to these uncertain times, one of the main concerns would be on educating and letting the students know of all the resources that are available to them during these uncertain times, for example the new Pass/ No Pass policy, that De Anza is offering Psychological Services, and that there are tons of resources of the De Anza main page. Bottom line is that student are unaware that these resources are there for them to use and to take advantage of. Another concern would be about how to help students with online education because I have noticed an increase of students saying that they are not able to receive the education they signed up for.

Other non COVID issues would be the housing crisis. There are many student that have always struggled finding reliable housing and that is a concerning issue that needs to resolved. It will truly benefit students who have complicated commuting times.
