SLO 2	Evaluate the behavior of graphs in the context of limits, continuity and differentiability.
SLO 3	Recognize, diagnose, and decide on the appropriate method for solving applied real world problems in optimization, related rates and numerical approximation.

Homework: Assigned each week, due next week. We will be using WebAssign. It is included in the cost of the Book sold in the bookstore. Students will also make a Homework binder. It will be graded as part of homework. The homework binder must contain all homework, quizzes and tests. It should be used to review for tests and the final. It must be neat, easy to read.
