ARTS 1A: Introduction to the Visual Arts

This course introduces students to observe, analyze, and appreciate the works and process of visual artists from around the world and through history. We look at the environments that influence art movements as well as the intentions and innovations of individual artists. We touch upon the basic techniques and terminology of a number of mediums and the history leading up to their usage. Then studying paintings, drawings, and sculpture ranging from representational to abstract and utilitarian to conceptual, we enhance our understanding and our ability to critically discuss these works.
